

20 minutes enough for 100% charging!

1/10 NANOPHOSPHATE® 2200 30C 6.6V

Perfect Size for
1/10™ Sub-C size
Rock Crawler
Balance plug: PQ Type-3pin

Dean and Ultra Plug are trademarks of W.S. Dean & Co. Patent#5533915

P/# NP2S05

• Voltage	6.6V	• Max Current Cont	65A (30C)
• Capacity	2200mAh	• Max Current Pulse	130A (60C)
• Configuration	2S2P	• Size [L×H×W]	136×22×45mm
		• Weight	200g

NANOPHOSPHATE® Characteristics

Exceptional Power Output	Capable of 30C continuous discharge and up to 60C burst.
Quick Charge	Sonic Charge™ systems provides 10 amps to charge batteries in as little as 20 minutes (a charge rating of 5C).
Durability	Metal cell casing protects while technology provides battery life up to 1,000 cycles.
Safety	Nanophosphate technology provides a safe chemistry that is more abuse tolerant than other Lithium batteries. The cylindrical cell also has a safety vent that will allow internal pressure to escape in the event of extreme abuse.

Sonic Mini Charger in 20 minutes

NANOPHOSPHATE® Mini

• A123 mode with balance	PQ Type
• Balance Plug	1 - 2 Cell
• Cell	1 - 3S (Nanophosphate packs only)
• Pack Charge	10 - 15V DC
• Input Voltage	1A to 8A [step by 1.0A]
• Charge Current	200mA
• Balance Discharge Current	280 grams
• Weight	122×31×70mm
• Dimensions [L×H×W]	

P/# JD29

Quick Charge	Sonic Charge™ system capable of charging to 100% in as little as 20 minutes.
Safety	Safely charge your Nanophosphate packs without fear of battery damage or fire.
Plug and Play	Plug it in and in 20 minutes you are ready to go.
